

The Complete Roadmap to Artificial Intelligence & Quantum Computing

Author: Muhammad Bilal

Preface:

Welcome to your journey toward mastering Artificial Intelligence and Quantum Computing. This book is designed to guide you from basic to professional level understanding. Follow chapters sequentially, complete exercises and Python projects, and refer to included references and research papers.

Table of Contents

1. Mathematics
2. Classical Mechanics
3. Quantum Mechanics
4. Python Programming
5. Artificial Intelligence
6. Machine Learning
7. Deep Learning
8. Neural Networks
9. Generative AI
10. Artificial General Intelligence
11. Semiconductor Chips (Quantum Processors)
12. Quantum Computer
13. Cryptography

Chapter 1: Mathematics

Full content with theory, exercises, diagrams, references, and Python examples would be included here.

Chapter 2: Classical Mechanics

Full content including Newtonian mechanics, Lagrangian mechanics, Hamiltonian mechanics, and exercises would be included here.
